.com/etools/eTables_n_v2.zip"> As you can see I am using this JQuery plugin which is also the one which the plugin is based upon. When I submit the form, the results are not returned in the #content div, I get this error: Failed to load resource: net::ERR_FILE_NOT_FOUND A: The error does not make sense. This error is associated with the 404 page you specified in your example. Your example If this is just an example for testing purposes, then you should submit a form via a regular submit button or change the first line to form method="get". * * For the full copyright and license information, please view the LICENSE * file that was distributed with this source code. */ /** * Authors: * - Automat de Imigrei Pungee * - JD Isaacks return { 'year' => ':count an', 'month' => ':count mě', 'week' => ':count nitsa', 'day' => ':count auvat', 'hour' => ':count pět', 'minute' => ':count minit', 'second' => ':count daquă', 'ago' => ':time', 'from_now' => 'in :time', 'year_ago' => ':count ană', 'month_ago' => ':count měnă', 'week_ago' => ':count nită', 'day_ago' => ':count auvată', 'hour_ago' => ':count pětă', 82157476af
